Dear Harold -

I'm sending you a few items here. The main thing is a copy of a magazine currently on the stands called "OSWALD: The Secret Files". It purports to be copies of recently released JFK files. I'm not sure what's included, but the explanation of the documents is lacking in detail and for someone not familar with this case it doesn't go very far in explaining what each document means.

Also included here are a number of Jim Garrison obituaries. I have noticed that no cause of death [redacted] was mentioned in the report and no [redacted] articles have appeared subsequently saying what Garrison died of. I'm not looking for a conspiracies here, I was just curious what the cause of death was and wondered why it wasn't ever mentioned.

There's a few reviews of "The Jim Garrison Tape" which I believe was already released on video a while back.

That's about it for now. Hope all is well.

Best - Robert
